MANDALAPU SINDHU PRIYA

Python Full-Stack & Frontend Developer

sindhumandalapu7@gmail.com • +91 8919632627 • Hyderabad, India • LinkedIn

PROFESSIONAL SUMMARY

Python Full-Stack & Frontend Developer with approximately 3 years of hands-on experience building responsive, user-centric web applications using Python, Django, HTML, CSS, JavaScript, and RESTful APIs. Skilled in developing reusable UI components, creating responsive web pages, integrating frontend components with backend APIs, and collaborating within Agile teams to deliver production-ready features. Strong understanding of Python fundamentals, frontend development best practices, and clean code principles, with a focus on improving application performance, accessibility, and maintainability.

TECHNICAL SKILLS

Languages	Python, JavaScript, HTML5, CSS3, SQL
Frontend	HTML, CSS, JavaScript, Bootstrap, Django Templates, Responsive Web Design
Backend	Python, Django, REST APIs
Database	MySQL, PostgreSQL, MongoDB
Tools	Git, GitHub, Postman, VS Code, PyCharm, Eclipse
Soft Skills	Team Collaboration, Analytical Thinking, Communication, Time Management

PROFESSIONAL EXPERIENCE

Associate Software Engineer | Mythri Ojas Technologies | Ananthapuramu | *Oct 2024 – Present*

- Developed and maintained web application user interfaces using HTML, CSS, JavaScript, Bootstrap, and Django templates.
- Designed responsive web pages to provide a consistent user experience across different devices.
- Implemented dynamic content rendering and date display using Django templates.
- Worked with team members to understand requirements and implement frontend features.
- Supported application testing, debugging, and UI improvements to enhance usability and functionality.
- Collaborated with backend developers to troubleshoot integration issues and improve frontend and backend communication.
- Developed and enhanced reusable UI components to improve application consistency, maintainability, and user experience across different web application modules.

Software Developer Intern | Mythri Ojas Technologies | Ananthapuramu | Oct *2023 – Sep 2024*

- Gained practical experience in web application development using Python, Django, HTML, CSS, and JavaScript.
- Assisted in developing responsive user interfaces and reusable frontend components to improve application usability and maintain consistency.
- Worked with team members to understand project requirements and implement application features.
- Learned to debug application issues and perform functional testing.
- Collaborated with the development team to support continuous integration workflows using Git and Jenkins.
- Assisted in integrating frontend components with backend functionality to support application workflows and improve user interactions.
- Developed foundational skills in software development practices, version control, and team collaboration.

PROJECTS

Personal Portfolio Website — *React.js, TypeScript, HTML5, CSS3, JavaScript, Tailwind CSS*

Role: Frontend Developer

- Designed and developed a responsive personal portfolio website using React.js and TypeScript to showcase professional skills, projects, and experience.
- Implemented reusable UI components, responsive layouts, and interactive elements to deliver a modern user experience across desktop and mobile devices.
- Integrated dynamic sections for project details, technical skills, professional profile, and resume to present information in a structured manner.
- Prepared the application for public deployment to provide recruiters and potential employers with easy access to professional achievements and projects.

Parkway Digital Healthcare — Digital Healthcare & Homecare Platform — *Python, Flask, Linux, MySQL, Git, Docker, Bitbucket, Jira*

Role: Frontend Developer

- Developed and maintained frontend functionality for the Homecare system using HTML, CSS, JavaScript, and relevant frontend technologies.
- Collaborated with backend developers to integrate REST APIs with frontend components.
- Participated in team discussions to understand business and application requirements.
- Created and maintained frontend documentation.
- Developed user interface components for inventory management to display and manage product quantities.

Automatic Door Opening System Using IR Sensor — *IR Sensor, Microcontroller, Embedded Systems*

Role: Developer & Circuit Designer

- Developed an automatic door opening system using an IR sensor to detect the presence of a person near the door.
- Implemented sensor-based functionality to trigger automatic door opening and closing.
- Integrated the IR sensor with the embedded control system to enable automated door operation.
- Designed and tested the system to support convenient, hands-free access.

EDUCATION

Bachelor of Technology — Electronics & Communication Engineering *Jun 2019 – May 2023*

BWEC, Bapatla, AP | CGPA: 7.3 / 10.0

Intermediate — Mathematics, Physics, Chemistry *Jun 2017 – Apr 2019*

Narayana Junior College, Guntur, AP | CGPA: 7.8 / 10.0

CERTIFICATIONS

- VLSI Virtual Internship — Certificate of Completion | 1Stop
- Web Development — Certificate of Completion | Internshala
- National Level Quiz Competition — C Programming | Certificate of Participation

ACHIEVEMENTS & LEADERSHIP

- Student Coordinator — BECTAGON 2K23, National Techno-Cultural Program: managed event planning, participant coordination, and technical sessions.
- Volunteer — National Service Scheme (NSS): contributed to several community health and awareness programs.
- Contributed to project planning, task coordination, and implementation during college project activities.

LANGUAGES

English (Professional Working Proficiency) • **Telugu** (Native) • **Hindi** (Conversational)
